

THE DESOLATION

CRAFTING DEEP DIVE

INTRODUCING NFT UTILITY & CRAFTING

Players will finally be able to craft NFTs on their ship and playing with equipped NFTs will significantly impact their reward chances.

Dear Players,

We've heard your feedback, and we're excited to announce new features that let you earn cryptocurrency and NFTs while playing!

Starting with our next update, the **NFTs you own will have real in-game value**. Here's how:

- **Economy NFTs:** Introducing workshops, workstations, and transformers to enable NFT crafting.
- **Equipped NFT Gear:** Earn Hard Currency and Transformer NFTs by using your gear.
- **Higher Rarity, Better Rewards:** Rare NFTs will give you higher drop chances.
- **Instant Power Boost:** Your NFT gear will come with a high Upgrade level right from the start.
- **Airdrops:** Like Big Time, increase your chances of getting valuable NFTs by owning NFTs and climbing the leaderboard.
- **Economy Update NFTs:** All NFT owners will have a chance to earn new economy-related NFTs.

RESOURCES & CURRENCIES V1

Basic Crafting Resources

Iron

Titanium

Aluminum

Each faction will specialize in different crafting resources, adding a unique flavour to your crafting experience. These specializations will be refined over time.

Resource Collection: You can gather the necessary resources primarily from Resource Ores and Supply Crates.

Valuable Crafting Resource

Shade Core

A very rare resource essential for crafting high-level items. In the future, we might limit how much you can earn each week.

Resource Income:
Found as rare loot drops from Season Bosses in Seasonal Challenges.

NFT Crafting Resource

Transformer

Extremely rare NFT drop that is required to craft NFTs. Initially, we'll introduce only Weapon Transformers. To get these drops, you'll need to have an NFT equipped.

Resource Income:
Very rare loot drops from enemies when having NFTs equipped and a MYSTERY BOX reward.

Soft Currency

Credits

The main currency needed for upgrading and crafting items. Typically, you'll need both Credits and a basic crafting resource (e.g., Iron).

Resource Income:
Dropped by enemies, found in supply crates, and earned through mission completion rewards.

Hard Currency

Platinum

Hard Currency will initially be used to speed up crafting and craft NFTs. Later, it will also be used to purchase shop offers and speed up progress.

Resource Income:
Primarily purchased from the store but can also be won as a reward from the Seasonal Leaderboard.

NFT WORKSHOP & WORKSTATION

A new room on the ship requires players to own a **WORKSHOP NFT** to gain access. By default, it's locked.

Inside of the workshop room is a **WORKSTATION** that requires a **WEAPON WORKSTATION NFT** to gain access. By default, it's not interactable.

With the Economy Update, we're introducing two new NFTs, both required for crafting:

- **Uncommon Transformation Workshop NFT**
- **Uncommon Weapon Workstation NFT**

These NFTs will unlock necessary functionalities on your ship for crafting weapon NFTs. In this initial release, the rarity of these NFTs won't impact the ship assets.

To craft an NFT item, you'll need:

Weapon Transformer NFT
Platinum (Hard Currency)
Weapon Set #1 Blueprint.

Future Rarity Impact: In upcoming updates, rarity will affect crafting, e.g., Rare Workshops will only slot into Rare Workstations or lower.

Note

Rarity of Workshops & Workstations won't have an impact on release – every player can craft every rarity. With the next Economy Update, the rarity will impact also the max rarity (e.g. Rare Workshops can only slot in Rare Workstations and lower).

HARD CURRENCY

The new hard currency PLATINUM can exclusively be bought on Open Loot's website.

It's not an NFT and can't be traded.

The primary hard currency in the game will be PLATINUM that can be acquired directly through Open Loot or as reward from Mystery Boxes. At launch it has two main use cases:

- **Pay NFT crafting costs**
- **Skip NFT crafting time**

In the future, Platinum will also let you buy shop offers and speed up progression related features.

Platform Restrictions: Due to its tie to Open Loot, Platinum won't be available on Steam or the App Store.

Account Transfers: Platinum can't be transferred if you migrate or connect accounts to Open Loot.

Future Plans: We may introduce a separate hard currency for F2P users, allowing broader accessibility outside of Open Loot.

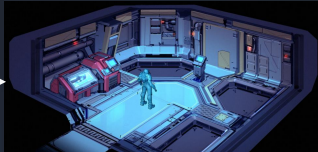

NFT WEAPON CRAFTING – V1

Acquire blueprint **WEAPON SET #1** from SEASONAL CONTENT.

Acquire **TRANSFORMERS** from rare loot drops when using NFTs.

Users need a **WORKSHOP** and a **WEAPON WORKSTATION** to craft.

Crafting costs **PLATINUM** and requires one **TRANSFORMER** and at least one **BLUEPRINT** (higher rarities cost more).

Crafting NFTs will only be possible if you own both a Workshop and a Weapon Workstation.

With the economy release, there will be one blueprint available called **Weapon Set #1**, which you can earn as a reward from defeating Seasonal Bosses.

Weapon Set #1 allows you to craft the following NFT weapons:

- **Uncommon Shotgun** - 2000 Total Mints
- **Rare SMG** - 1000 Total Mints
- **Epic AR** - 500 Total Mints
- **Legendary MR** - 200 Total Mints

To craft higher rarities, users must invest more blueprints & Platinum. Crafting cost **example**:

- **Uncommon** – 1 Blueprint, 100 Platinum
- **Rare SMG** - 5 Blueprints, 500 Platinum
- **Epic AR** - 10 Blueprints, 1000 Platinum
- **Legendary MR** - 20 Blueprints, 2000 Platinum

REQUISITION BOX

This requisition box can be earned as a reward for community events and very rarely for defeating bosses in a seasonal challenge mode.

- 500x Common Workshops
- 500x Common Weapon Workstations
- 2000x Large Platinum Stack (1000)
- 3000x Weapon Transformers
- 14000x Medium Platinum Stack (500)
- 30000x Small Platinum Stack (250)

TOTAL:
50'000 REQUISITION BOXES

PLATINUM

MYSTERY BOX AIRDROPS

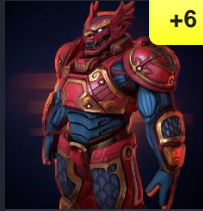

+10 POINTS

DARK CORRUPTING SYMBIOSIS (MASTERWORK PROTOTYPE)

Mythic

+6 POINTS

DRAGON FORTRESS (LEGENDARY SUIT)

Legendary

+1 POINT

SPARTAN 12-G (UNIQUE)

Rare

MISSION 32 COMPLETE

1000

CHALLENGE LEADERBOARD

NAME	POINTS	PERCENT RANK	AVG
1  ChibiDax	188	87	3483

9 DaxiBrock	73	84	1681
10 PhoenixCrack	66	90	1547
11 PhoenixCrack	66	90	1547

+20 POINTS

Every month, we will be **airdropping a set amount of Mystery Boxes** amongst our community.

The rewards and chances depend on the REWARD TIER which is impacted primarily by the NFTs you own.

The rarity of owned items will have a direct impact on your REWARD TIER POINTS:

- **Rare** = 1 TIER POINT
- **Epic** = 3 TIER POINTS
- **Legendary** = 6 TIER POINTS
- **Mythic** = 10 TIER POINTS

Being active during seasons and getting on the Leaderboard will also net you additional points:

- **Top 1-3 Placement** = 20 TIER POINTS
- **Top 4-10 Placement** = 10 TIER POINTS
- **Top 11-20 Placement** = 5 TIER POINTS

Everything together will determine your REWARD TIER:

- **Tier 5** = 3 Mystery Boxes, Guaranteed Airdrop
- **Tier 4** = 2 Mystery Boxes, High Airdrop Chance
- **Tier 3** = 1 Mystery Box, Medium Airdrop Chance
- **Tier 2** = 1 Mystery Box, Low Airdrop Chance
- **Tier 1** = No Airdrops
